

Hi Kelly,

We have quite an intricate setup -

Might make most sense to bring my rack and hit would be a quicker transition.

Heres what we would need -

4 handheld wireless

3 belt pack shure wireless

4 wireless horn mics

5 piece drum set

We have 2 keyboard rigs - each with 2 inputs

Wireless Bass

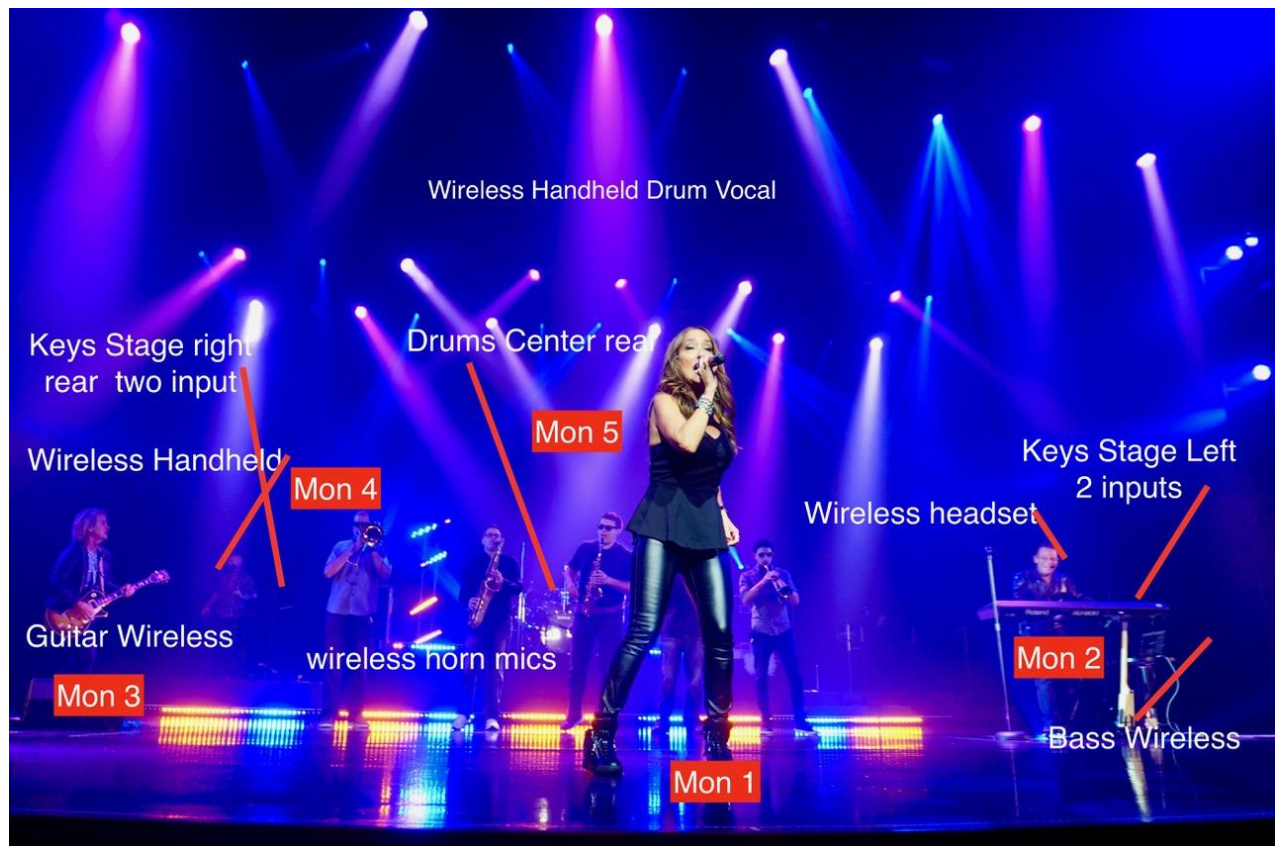

Wireless Guitar

5 individual monitor mixes

(we prefer in ear systems)

I have all of this stuff and could probably combine for a quicker setup

Couple pics of our standard stage setup

Regards,
Erik Dabach
